## Experience

### Software Engineering Intern (Android)

Boulder, CO (remote)

HONEY (PAYPAL)

June-September 2020

- Fixed critical app accessibility issues for screen readers, keyboard navigation, and large font sizes
- Developed and maintained automated UI tests for CircleCI Continuous Integration and Continuous Deployment pipeline
- Built a showcase in Kotlin of custom UI components, enabling greater reuse and easier tweaking of their functionality

### Software Engineering Intern

Mountain View, CA

HYTRUST INC.

June-August 2019

- Used openAPI to make public Django API self-documenting, greatly accelerating documentation updates
- Increased products' network security by integrating SSL certificate validation between linked cloud VMs, utilizing openssl

### Research Assistant

Grinnell, IA

UNDERGRADUATE RESEARCH PROJECT, IMAGE SYNTHESIS FOR MACHINE LEARNING

June-August 2018

- Developed a C/C++ program to generate synthetic training data for a text recognizing neural network
- Training with our data generator improved model accuracy by 10% over accuracy when trained on industry-standard data sets
- See the research code at <https://github.com/niehusst/MapTextSynthesizer>

### Co-Founder and Full Stack Developer

Grinnell, IA

GRAMMIEGRAM LLC

April-August 2018

- Developed the backend database design for user preferences using Python and the Django framework
- Constructed and maintained unit testing for the GrammieGram web app
- Designed frontend UI for the contact management page using JavaScript and Bootstrap

## Projects

### Compliance Accomplice

Oct 2018

HACKUIOWA

- Developed email middleware using Python to detect and prevent SEC compliance violations using Natural Language Processing
- Won "Best Commercial Potential" and "Best use of Google Cloud" awards
- See project at <https://github.com/niehusst/ComplianceAccomplice>

### partyq Android App

Summer 2020 - Current

(SIDE PROJECT)

- A music queue Android mobile app that connects to guest devices via bluetooth and wifi and plays music through the Spotify API
- Utilized Google network connection library to build distributed peer-to-peer architecture for relaying data
- See project at <https://github.com/niehusst/partyq>

## Education

### Grinnell College

Grinnell, IA

BACHELOR'S DEGREE

2016-2020

- Computer Science Major
- Major GPA: 3.76 Overall GPA: 3.6

## Skills

**Programming Languages** Python, Java, Kotlin, C/C++

**Web** Django, APIs

**Mobile** Android
