## Experience

### Software Engineer II (iOS)

Full Remote

HONEY (PAYPAL)

February 2021-Present

- Developed UI for product detail and checkout pages using Swift and Xcode for the Honey iOS app.
- Led the design and implementation of automated translation system for both mobile teams, saving 6 hours of dev time each release.
- Helped port the Honey iOS app from React Native to native Swift.
- Created shared CI/CD distribution pipeline to make sharing SDKs between Honey and PayPal possible.

### Software Engineering Intern

Mountain View, CA

HYTRUST INC.

June-August 2019

- Used openAPI to make public Python Django API self-documenting, greatly accelerating documentation updates
- Increased products' network security by integrating SSL certificate validation between linked cloud VMs, utilizing openssl

### Research Assistant

Grinnell, IA

UNDERGRADUATE RESEARCH PROJECT, IMAGE SYNTHESIS FOR MACHINE LEARNING

June-August 2018

- Developed a C/C++ program to generate synthetic training data for a text recognizing neural network
- Training with our data generator improved model accuracy by 10% over accuracy when trained on industry-standard data sets
- See the research code at <https://github.com/niehusst/MapTextSynthesizer>

### Co-Founder and Full Stack Developer

Grinnell, IA

GRAMMIEGRAM LLC

April-August 2018

- Developed the backend database design for user preferences using Python and the Django framework
- Constructed and maintained unit testing for the GrammieGram web app
- Designed frontend UI for the contact management page using JavaScript and Bootstrap

## Projects

### Compliance Accomplice

Oct 2018

HACKUIOWA

- Developed email middleware using Python to detect and prevent SEC compliance violations using Natural Language Processing
- Won "Best Commercial Potential" and "Best use of Google Cloud" awards
- See project at <https://github.com/niehusst/ComplianceAccomplice>

### partyq Android App

Summer 2020 - Current

(SIDE PROJECT)

- Distributed music queue mobile app that connects guests via bluetooth and wifi and plays music through the Spotify dev SDK
- See project at <https://github.com/niehusst/partyq>
- See on Google Play Store at <https://play.google.com/store/apps/details?id=com.niehusst.partyq>

## Education

### Grinnell College, Bachelor's Degree

Grinnell, IA

COMPUTER SCIENCE MAJOR

2016-2020

- Major GPA: 3.76 Overall GPA: 3.6

## Skills

**Programming Languages** Python, Swift, Kotlin, JavaScript, Java, C

**Web** Django, APIs

**Mobile** Android Native, iOS Native
